

Appendix H. State Licensing Regulations and Preventing Childhood Obesity Standards from *Caring for Our Children* (3rd ed.)

Degree to which state licensing regulations contain 47 preventing childhood obesity standard components from *Caring for Our Children* (3rd ed.)*

† For each state, data are aggregated from a prior report containing as many as three separate ratings per standard component for the state's licensing regulations for family care homes (small and large) and centers. For each component, the lowest rating the state received was used. For instance, if one of the ratings on a given component was "contradicted," the state's language was considered to be contradictory for that component; language may not have been contradictory, however, on that component for all types of regulations reviewed for that state. For complete assessment results go to: www.nrckids.org/regulations_report_2010.pdf.

* Preventing Childhood Obesity in Early Care and Education Programs (2nd edition), Selected Standards from *Caring for Our Children: National Health and Safety Performance Standards* (3rd edition), developed by the American Academy of Pediatrics, the American Public Health Association, and the National Resource Center for Health and Safety in Child Care and Early Education.
